Apple Garageband World Jam Pack

Midi and Music Loops - Bagpipes, Snare Drums, Fiddle, Flute, Whistle

The Jam Pack: World Music contains over 3,235 Apple Loops played by master musicians from nearly every corner of the globe and 42 software instruments. If you have Apple's (included in iLife '06) Garageband 3.0 and a Deger Bagpipe Chanter you are going to have lots of fun. First off you will be able to reproduce your favorite bagpipe tunes into a digital format called midi. What makes this great is that you can lay down on track using the Deger chanter, copy the track and playback the piece using a different instrument voice. This allows you to create your multi instrument compositions quite easily. When your done with your work of art just save the selection as an mp3 and load it into your ipod. If you were thinking about dropping $99 on this package, do yourself a favor a go out a buy it, you won't regret it. A complete listing of GarageBand Jam Pack: World Music software instruments and loops Software Instruments (42) African Kalimba African Kit African Marimba Afro-Cuban Upright Piano Asian Kit
