Kilberry Chamber Pipes

http://www.kilberry.com/

The chamber pipe is a miniature version of the highland pipe.

This produces a practice chanter type sound but with the addition of three drones - two tenors and a bass. They are generally in the key of B flat and are suitable for playing indoors, as the name would suggest. These pipes are made from African blackwood, have a small Bannatyne synthetic bag and come with choice of covers and cords. The chanter on this set is African blackwood and the pipes come fully reeded and ready to play. Kilberry supplies our own competition-standard bagpipes at massive discounts. Our production quality, our service and our experience is is second to none... in fact, in 1996 we were the first company in the world to sell bagpipes online with secure ecommerce!
